The Total Credit amount being claimed should be transferred to Schedule I of the Health form Tax Return, or to Schedule VI of all other Tax Returns.

Forms are to be completed by **February 1** and emailed to Denise Burke, Senior Policy and Planning Analyst at [Denise.Burke@wyo.gov](mailto:Denise.Burke@wyo.gov).

## Instructions for the Enzymatic Disorder Justification Worksheet

The following guidance is provided in connection with coverage for Inherited Enzymatic Disorders, mandated in Wyoming Insurance law. The Wyoming statute was amended during the 2014 legislative session to provide a premium tax credit to carriers when coverage is provided under this mandate. The amendment was added in order to comply with the provisions of the federal Patient Protection and Affordable Care Act of 2010 (as amended), wherein states must defray the cost of mandated benefits which were not included in the Benchmark plan.

### Wyoming Statutes §26-20-401 – Inherited Enzymatic Disorder Coverage

**(a)** All individual and group health insurance policies providing coverage on an expense incurred basis, individual and group service or indemnity type contracts issued by any insurer including any nonprofit corporation and individual and group service contracts issued by a health maintenance organization or delivered on or after July 1, 2013, shall provide coverage for the equipment, supplies and outpatient self-management training and education, including medical nutrition therapy for the treatment of inherited enzymatic disorders caused by single gene defects involved in the metabolism of amino, organic and fatty acids if prescribed by a health care professional legally authorized to prescribe such items under law. Covered inherited enzymatic disorder outpatient self-management training and education shall be provided by a certified, registered or licensed health care professional with expertise in inherited enzymatic disorders. For purposes of this section, required covered outpatient self-management training and education shall be limited to:

**(i)** A one (1) time evaluation and training program when medically necessary, within one (1) year of diagnosis;

**(ii)** Additional medically necessary self-management training shall be provided upon a significant change in symptoms, condition or treatment.

**(b)** For purposes of this section, "inherited enzymatic disorders" includes and is limited to phenylketonuria, maternal phenylketonuria, maple syrup urine disease, tyrosinemia, homocystinuria, histidinemia, urea cycle disorders, hyperlysinemia, glutaric acidemias, methylmalonic acidemia and propionic acidemia.

**(c)** The benefits provided under this section shall be subject to the same annual deductibles or coinsurance established for all other covered benefits within a given policy. Private third party payors may not refuse, reduce or eliminate coverage due to the requirements of this section. Enforcement of this section shall be performed by the commissioner or his designee.

**(d)** This section shall apply to both public and private health benefit plans, as defined in W.S. 26-1-102(a)(xxxiii) and (xxxiv), delivered or issued on or after July 1, 2013.

**(e)** The cost of any benefits paid pursuant to this article by an insurer or health maintenance organization in policies or contracts with an initial effective date on or after January 1, 2014 shall be allowed as a credit against any state premium tax liability that would otherwise be due to the

state under the Wyoming Insurance Code. The commissioner shall collect necessary information and prescribe reporting requirements to implement the premium tax credit provided by this section. This subsection is repealed June 30, 2017. (effective upon enactment – signed 3/4/2014)

The following guidance is provided to assist carriers in determining which costs are allowable under this premium tax credit. While not all-inclusive, this should provide the framework needed to justify any premium tax credit due to the issuer.

Diagnosis Codes:

Condition	ICD-9-CM Diagnosis Code*
Phenylketonuria	270.1
Maternal phenylketonuria	270.1
Maple syrup urine disease	270.3
Tyrosinemia	270.1 - 270.2
Homocystinuria	277.89
Histidinemia	270.5
Urea cycle disorders	270.6
Hyperlysinemia	270.7
Glutaric acidemias	277.85
Methylmalonic acidemia	270.7
Propionic acidemia	270.7

\*ICD-10-CM coding takes effect 10/1/15 – matrix to be updated prior to that time.

Formula codes – HCPCS codes

B Codes: used by Suppliers, S Codes: Direct Submittal to Insurance

B4157 – Adults (BO modifier for oral administration)

B4162 – Pediatric (BO modifier for oral administration)

S9435 – Either

Self-Management Training for Inherited Enzymatic Disorders

E/M Coding – Consultation (99241-99245) - most appropriate for new diagnoses.

Office visit (99201-99215) – for assessments, re-evaluations

CPT 97802 – Medical nutrition therapy; initial assessment and intervention, individual, face to-face with the patient, each 15 minutes

CPT 97803 – Re-assessment and intervention, individual, face-to-face with the patient, each 15 minutes

(These codes *may* be used with a -32 modifier to indicate a “Mandated Service”.)

Medications and supplies

B4034-B4036 Enteral Feeding Supply Kits

B4081-B4088 Feeding Tubes

B9998-B9999 (For Enteral/Parenteral Supplies)
