VETERANS ELIGIBLE FOR REIMBURSEMENT OF INSURANCE LICENSING TESTS

CHEYENNE, Wyo. — Insurance Commissioner Tom Hirsig is pleased to announce that many of the Insurance Department producer licensing exams are now eligible for veteran's reimbursement through GI Bill benefits.

“It is an honor, whenever the state of Wyoming can provide an added benefit to those who have served our country with such valor,” said Commissioner Hirsig. The Wyoming Department of Insurance has worked with the Wyoming Military Department in receiving approval for veteran's reimbursement of required insurance tests.

The Wyoming Department of Insurance is very excited to be a part of this great service our veterans may utilize for their professional growth. Veterans will need to refer to the Wyoming Department of Insurance web page at <http://insurance.state.wy.us> for a full list of insurance exams that are eligible for veteran's reimbursement and also to find additional information regarding licenses and required items needed to obtain an insurance license in several areas of expertise.

Veterans may refer to the following web page for eligibility information and forms for reimbursement of testing fees by the GI Bill:
